2025 - 2026

Final Thesis - "How Accelerated Adoption Turns AI-FOMO into Compulsory Compliance" with a speculative design answer: CARRY

Kadir Has University @ Istanbul

Visual Communication Design BA

2018 - 2023

3.48 GPA

SELF-PROJECTS

[moonboy](#)

Under this name I keep my own practice that works closely with responsible AI, low-cost tools and methods for researching, experimenting and designing with technology.

[yuva](#)

Floating heads video calling application for Mac.

[open-source typography](#)

I am a type enthusiast and I have designed different open-source typeface families and published them publicly. (See my name above, Nafile)
